

Crown Laboratories, along with our affiliated companies, has a long-standing heritage in skin care, and we are passionate about providing consumers and clinicians with innovative solutions for the skin. As our mission states, we are committed to developing and providing a diverse portfolio of pharmaceutical and consumer products that improve the quality of life for our customers.

With consumer brands like Blue Lizard Australian Sunscreen, Panoxyl, Sarna, Vita Liberata, and more, we offer best-in-class sunscreens, self-tanning lotions, moisturizers, cleansers and oral care products. Our prescription products provide healthcare professionals with solutions for managing a variety of skin conditions. With the recent addition of Bellus Medical, we are now a leading innovator in aesthetics. We are excited about our future, as we grow to become an innovative leader in the dermatology, skin care, and aesthetics industries while enriching the lives we touch.

We are currently recruiting for a Medical Science Liaison (MSL), which is a field based scientific expert that strategically supports the research and business objectives of a designated therapeutic area across the product life cycle. MSLs are the primary communicators of Crown Laboratories within a specific geography with healthcare professionals. MSLs are the field scientific experts on given disease states and treatment options within a designated therapeutic area. They combine strong business acumen, clinical expertise, market awareness, and serve as a conduit of information both externally and internally to a cross functional customer base internally within AbbVie. Based on therapeutic needs and product life cycles, teams may focus on certain responsibilities to a greater or lesser degree, including clinical development and pipeline support.

**Essential Roles and Responsibilities:**

- External expert (opinion leader) cultivation:  
Identifies, gains access to, and develops professional relationships with external experts in therapeutic areas of interest within assigned geography. Provides education relative to disease state and Crown products across the product lifecycle to healthcare providers and researchers.
- Serves as a medical/scientific resource to healthcare providers through answering unsolicited medical questions and addressing other clinically related medical information issues.
- Clinical trial support:  
Supports research initiatives across development at the request of R&D to include but not limited to, site evaluation and identification, recruitment, investigator meetings, external expert identification, and study management.
- Project management:  
Works with internal Medical Affairs customers to develop and execute a territory plan designed to support and meet shared business objectives.
- Inputs and maintains internal database as it relates to activities in their geography.
- Prepares marketplace in new therapeutic areas of interest, which includes creating awareness and relationships for Crown in the Medical community.
- Serves as a scientific resource to commercial partners, as appropriate, to support activities
- Self-Development: Develops and communicates a professional growth plan. Continually educates self on global market issues, trends, and product knowledge as it pertains to specific business responsibilities in key therapeutic areas.
- Takes responsibility for and actively manages professional development.

**Requirements:**

- Advanced degree required (i.e. Pharm D, MD/DO, PhD, PA or NP, BSN) in a relevant scientific discipline. Doctorate strongly preferred in a health science or clinical discipline.

- Significant industry experience in Dermatology, Immunology and Aesthetic medicine may be accepted in lieu of education requirements.
- At least 2 years of clinical, scientific research or industry related experience or equivalent required.
- Previous pharmaceutical industry experience within relevant scientific discipline preferred.
- The MSL must possess advanced problem solving and analytic skills to be able to identify and translate specific territory and corporate.

Position requires up to 75% Travel

NOTE: This job profile is intended to provide an overview of expected job duties and requirements. It is not intended to be a contract of employment, explicit or implicit. All contents are subject to change at the sole discretion of the company. Cooperation is expected of all employees. Other duties may be assigned as needed.

We offer a competitive benefits package including vacation, medical, dental, vision, short/long term disability and 401(k) w/match.

*an Equal Opportunity Employer*
